To whom it may concern,

I am pleased to recommend company's White Edge Gardening Construction Ltd garden maintenance services to everyone who appreciates high quality and special care for indoor and outdoor plants. We have had a successful cooperation with Liene and her colleagues for the past year. They are taking care of all our plants, indoor and outdoor, by replanting, curing any diseases and advising about the right approach to watering and placement. The plants are blooming and looking nice all year round.

We appreciate the possibility to receive the services not only based on a schedule but also upon special request when any important events or visits are planned in the Embassy.

I recommend White Edge Gardening Construction Ltd for your garden maintenance, and other garden construction needs.

Ivita Burmistre
Ambassador of Embassy of Republic of Latvia
